School Plan & Budget for the 2018–19 School Year

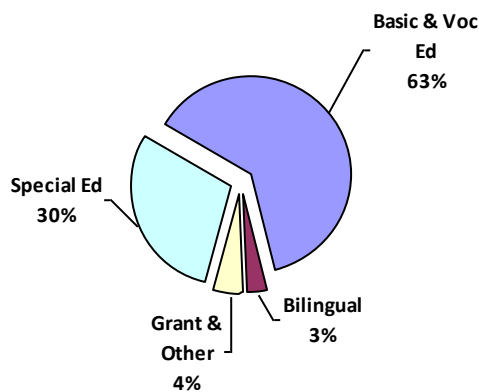

School Mission Statement
 Chief Sealth International High School fosters global awareness and academic success through a challenging and engaging curriculum in a safe and supportive learning environment.

School Goals
 Chief Sealth International High School is committed to:
 1) Closing the gap that exists between racial and socioeconomic subgroups of students in both academic performance and discipline. Improved academic performance of subgroups of students will be measured by scores on state tests, GPAs, and graduation rates. Improved discipline will be measured by attendance and discipline rates.
 2) Raising the proficiency scores of all 11th grade students in Math, Science, Reading and Writing by 10% on the state exams.

School Description & Plan to Achieve Goals
 Chief Sealth International High School is a comprehensive high school that offers a wide array of opportunities for students who value learning in a dynamic, multi-cultural environment. It is an exceptional place that celebrates innovation and individuality. As a center of international educational excellence, we provide students opportunities to study the world both in the classroom and beyond. Our academic and arts offerings, our career preparation, and our athletic programs focus on educating global citizens. As an international high school within the Seattle Public School system we prepare students, in partnership with families and community, for global citizenship in an increasingly interdependent world.
 Chief Sealth International High School serves the West Seattle community where most of the students live close by, where many of the alumni still live near the school, and where many of the students are children of Sealth alumni. We are committed to rally our neighbors around the many positive activities that occur at our school.
 To meet state and district goals, teachers meet regularly in Professional Learning Communities to analyze student data, create common assessments, research instructional pedagogy and to make intentional instructional decisions aimed at increasing student achievement. To address academic goals, we provide opportunities for students to receive additional math, reading and writing instruction and support both within and outside of the school day.
